

## **Certification of Full Compliance with NIJ Standard 0604.01 Color Test Reagents/Kits for Preliminary Identification of Drugs of Abuse**

NIJ Standard 0604.01, Color Test Reagents/Kits for Preliminary Identification of Drugs of Abuse, is an equipment standard developed by the Office of Law Enforcement Standards of the National Institute of Standards and Technology. It was produced as part of the Law Enforcement and Corrections Standards and Testing Program of the National Institute of Justice.

This standard is a technical document that specifies performance and other requirements equipment should meet to satisfy the needs of criminal justice agencies for high-quality service. Purchasers can use the test methods described in this standard to determine whether a particular piece of equipment meets the essential requirements, or they may have the tests conducted on their behalf by a qualified testing laboratory. Procurement officials may also refer to this standard in their purchasing documents and require that equipment offered for purchase meet the requirements. Compliance with the requirements of the standard may be attested to by an independent laboratory or guaranteed by the vendor (DetectaChem LLC).

**DetectaChem guarantees that drug detection results from the following products fully comply with NIJ 0604.01 Standards:**

- **MobileDetect App and MobileDetect Pouch**
  - Includes all drug test pouches available as of February 1, 2018
