

LASER ODC

Laser ODC carrier features an ultra-strong exterior construction that is engineered with laser-cut technology. This innovative carrier design is ideal for officers who require functional load-carrying capabilities with the versatility to adapt to any situation.

FEATURES:

- Accommodates NIJ certified Level IIA, II or IIIA ballistic systems from Point Blank Enterprises
- Laser-cut outershell resists tears and punctures and is also highly moisture resistant
- Self-Suspending Ballistic System helps keep the panels comfortably suspended
- Allows integration of PBE concealable carrier directly into ODC Sleeve cover without removal of ballistics
- Top loading plate pockets
- Dual plate pockets allow a larger vest to accept smaller rifle plates
- Load-bearing laser cut technology accommodates a variety of equipment pouches
- 5" x 8" Trauma Plate Pocket (front only)
- Center Mic/Camera attachment
- Left and Right Mic Tabs
- Lower magazine pockets with VELCRO® closure (Size Dependent)
- Adjustable and reversible side elastic closure
- Adjustable and removable internal cummerbund
- Variable Spacing circular button holes for name and badge attachment
- Note Pad Pocket with VELCRO® closure
- Zipper adaptor
- Custom Agency ID Placards in the front and back
- Hang ID
- Colors: Black, Ranger Green, Multi-Cam, and Coyote

Optional System Features:

- SPEED Plates
- Hard Armor Plates
- Interior can accept BODYARMORVENT™
- Thorshield™ Electroshock Weapon Protection
- Pouches
